Remote Usability Testing Training

Join LSNTAP and GAP for an in-depth look at how to take your usability testing skills to the next level - virtual! In this 90-minute workshop, you'll get a quick brush-up on usability testing and then we'll focus on how to get the best results using online tools to connect with end-users remotely. We'll also hear from four community members about their experiences doing remote usability training.

Training will take place on January 25, 2022 at 3 p.m. EDT via Zoom.
