

# Usability Testing Webinar Recording

We all know that usability testing is critical, but with COVID, we can't do it like we used to. Join LSNTAP, MAP, and GAP for an in-depth look at how to take your usability testing skills to the next level - virtual! In this 90-minute workshop, you'll get a quick brush-up on usability testing and then we'll focus on how to get the best results using online tools to connect with end-users remotely. We'll also hear from four community members about their experiences doing remote usability training.
