

Member Spotlight: Josh Lazar

We are heading south to Florida today to meet community member Josh Lazar, the founder and Chief Everything Officer of TechThinkTankLLC. After more than 25 years working for other organizations, Josh recently decided to focus full time on TechThinkTank. Josh now spends his time helping legal aid organizations with RFP assistance, IT and Cybersecurity assessments, and software development projects. His goal is to make the marketplace a better place.

Josh notes that "our team is working with clients primarily with RFP process assistance and IT assessment projects. We're also building out an ecosystem to make vendor/decision-maker communications a lot better." But Josh isn't resting on his laurels and shared with us a personal goal of "building up my services as a professional speaker and speaker coach." Josh invites opportunities to speak to legal aid organizations or associations (send a message on LinkedIn or email).

Josh shares his office with a Chiweenie (chihuahua/dachshund mix) named Barney and a tabby (could be an Egyptian Mau) named Missy who delight webinar attendees when they interrupt make a guest appearance. Having two adorable furry friends seems like reason enough to invite Josh to speak.
