## TIG Conference Videos

In the wake of the 2016 LSC TIG Conference one of the interesting talks we had was LSC's New Technical Projects, in this talk they went over what LSC has been doing, how they plan on sharing what they have been doing with grantees. and general tech discussion. Intermediate Information Security which covers a lot of interesting ground and is aimed at the people in charge of technology. It's more technical than presentations aimed at upper management and has a broader scope than one aimed at the individual user.
