Legal Services Corporation's Innovations in Technology Conference (ITC).

Please join us in New Orleans, LA, on **January 9 – 11, 2019**, for the

Legal Services Corporation's Innovations in Technology Conference (ITC).

The conference brings together leaders from across the justice community to explore innovative ways of using technology to promote better access to services and ensure high-quality legal representation for low-income people. The conference draws over 400 participants, including technologists, legal aid advocates, executive directors, court personnel, academics, and other professionals. The ITC also provides an opportunity to network with an international community of colleagues and to cultivate project ideas that could lead to successful applications to LSC's technology grant program.

The conference will offer more than 50 breakout sessions, along with hands-on demos, affinity groups, rapid fire and legal tech startup talks, and plenty of networking opportunities. Sessions are organized into tracks of related content, including:

- Artificial Intelligence
- Data
- Online Tools
- IT and Internal Operations
- Self-Represented Litigants
- Disaster, Mobile, and Pro Bono Innovations

LSC will post the conference agenda to its website shortly and will share detailed session

descriptions and speaker information by late-November.

Registration: Early registration for the 2019 Innovations in Technology Conference is \$425 through November 30, 2018. Regular registration is \$475. Group registrations are \$395 per person for organizations sending three or more participants who are paying full registration fees. Conference registration includes several meals and an evening reception.
