Webinar: Rebuilding LawHelpMN.org

Please RSVP at <https://attendee.gotowebinar.com/register/4719489134917389580>

Electric Citizen partnered with the Minnesota Legal Services Coalition to redesign the statewide legal services website, LawHelpMN.org. The new site is set to launch on 01/31/19, but can be previewed at <http://test-lawhelp.pantheonsite.io>. We will demonstrate how we developed a platform to serve a statewide network of legal service providers, while providing powerful new online tools to serve low-income Minnesotans in need of legal aid.

Content includes:

- Planning and technology behind the new online “triage” tools, guiding users to service providers, legal materials and online intake
- Planning and technology behind online tools for legal service providers management
- How we utilized open-source tools to create a powerful editing experience and multi-lingual environment
- User testing, what we learned
- Tips for managing the relationship between the client and web developer agency

Presenters:

Dan Moriarty, Creative Director at [Electric Citizen](#)

Tim Broeker, Technical Director at Electric Citizen

J. Singleton, Legal/Technology Projects Manager at MN Legal Services
