## **LSNTAP Survey**

**The Legal Services Corporation requires us to provide information in a final report regarding the LSNTAP TIG Grant that ended on December 31, 2018.**

**The project goal for this grant was to provide training, technical assistance, resources and information that enable legal services programs across the country to more effectively use information technology systems to improve services to clients. We are asking you to complete this survey to see if we met that goal and to give insight that will better help us to serve you in the future.**
