Idaho legal Aid Services Drupal Survey

From 2015 to the end of 2017 Idaho legal Aid Services has been working on a TIG grant to better support the Drupal community. Now that the grant is finished they are working with Mary Zimmerman to create an evaluation report.

As part of that evaluation they need help from everyone in the community. If you have 5 minutes please fill out this short Drupal in Legal Aid survey.

To get an idea of the scope of the project they worked on you can see the 2016 Drupal Project RFP [here](#). This a project included three webinars, the Drupal Hackathon at TIG, a Drupal module, and mentoring to help people who were new to drupal and working in legal aid.
