## **Kids In Need of Defense - Tech Associate**

Kids in Need of Defense (KIND) is a global leader in the protection of unaccompanied refugee and migrant children. Launched in 2008, KIND champions a world in which every child's rights and well-being are protected throughout their journey to safety. Since 2008, KIND has accepted over 23,000 referrals of children seeking legal representation in their immigration proceedings. KIND has welcomed more than 41,000 attendees to trainings since its founding, cultivating partnerships with over 670 law firms, corporate legal departments, law schools, and bar associations across the country.

KIND seeks a full-time Technology Associate. This is a full-time remote position within KIND's Information Technology department. The Technology Associate will assist in the execution of technology-based solutions in support of KIND's mission. This position may require occasional travel between KIND's domestic field offices as well as to the headquarters office in Washington DC. This position reports to the Technology Manager.
