## RFP: Elder Law & Advocacy - Organizational Website

Elder Law & Advocacy (ELA) is a caring group of experienced elder law staff and trained volunteers in San Diego and Imperial Counties. ELA provides free and low-cost civil legal services to over 8,000 seniors annually, assisting both rural and urban seniors in the Southern California region through a unique community-based delivery system. This involves adopting and developing technology that enables reaching seniors wherever they are located. ELA's attorneys, staff and volunteers aid seniors at senior centers, nutrition sites, senior living complexes, mobile home parks, nursing homes, hospitals, and their residences.

ELA seeks to replace its current organizational website, and more broadly views this project as a re-imagination of its online presence, including social media strategy. ELA is therefore soliciting proposals from qualified vendors to provide website design and development services on a project basis as well as long-term ongoing hosting and support for the new system. The objective of the website is to improve communication and service delivery to clients, donors, volunteers, partner organizations, government agencies, attorneys, and the public.

Proposals are due by **Friday, August 26th, 2022**. For full details and instructions for submission, please see the attachment.
